EVGA | Product Specification Sheet

EVGA X58 SLI Mainboard

Part Number: 132-BL-E758-TR

EVGA Designed For The Overclocking Addict

KEY FEATURES

- EVGA Vdroop Control: Stabilizes voltage and ensures the maximum stability when overclocking.
- Onboard Clear CMOS, Power and reset buttons, with reset buton showing HDD activity
- EVGA E-LEET Tuning Utility gives you quick access to overclocking controls without going into BIOS.
- 100% Solid State capacitors allow for better overclocking and stability.
- EVGA EZ Voltage gives hardcore overclockers quick access to reading their voltage levels.
- Onboard Debug LED shows current CPU temp.

FEATURES

- Supports Intel Core i7 Processors
- Intel X58/ICH10R Chipset
- 6 DIMM Triple-Channel DDR3 1600MHz+ (With SZ1A BIOS or later)
- Enthusiast Layout Supporting 2-Way SLI, 3-Way SLI, and CrossfireX
- 10 SATA II 3.0GB/s ports (1 e-SATA)
- EVAGA Vdroop Control
- 2 Gigabit Ethernet Ports (10/100/1000)
- 8 Channel Audio (Includes COAX and Optical)
- Onboard Clear CMOS, Power, and Reset Buttons.
- 100% Solid State Capacitors
- Onboard CPU Temperature Monitor.
- Supports for up to 12 USB Ports (8 I/O, 4 External)
- 2 1394 Firewire Ports (1 I/O, 1 External)
- Innovative Chipset Fan with Sideways Exhaust
- EVGA E-LEET Motherboard Tuner

DIMENSIONS

- Width: 9.6in
- length: 12in
